

Member Profile

Connected Organizations for a Responsible Economy

(CORE) is Colorado's leading sustainable business trade association that enhances the economic vitality and competitive positioning of its members by assisting them in integrating socially and environmentally responsible business practices into profitable commercial enterprises.

Programs: CORE develops cutting-edge training and education programs, provides valuable tools and resources, and assists members to develop and share best practices. Specific programs include:

- Annual Sustainable Opportunities Summit
- Business Networking Breakfasts held the second Wednesday of every month
- Monthly programs and networking opportunities focused on the Clean Technology Cluster in Colorado. Meetings are held the last Tuesday of each month at the Denver Metro Chamber of Commerce
