### About the Regional Sustainability Roundtable Meetings

The Alliance for Sustainable Colorado is conducting a series of eight Roundtables around Colorado in 2010 to bring together local leaders across all sectors to share challenges and solutions to achieving long-term economic, social and environmental sustainability.

Information and ideas shared at these meetings will be made available to all participants, and will be compiled in a statewide report to be presented to government agencies, elected officials, non-profit organizations, business associations and university classes.

If you have questions about the roundtables, please contact [education@sustainablecolorado.org](mailto:education@sustainablecolorado.org).
